ABOUT US

The Coalition for Biological Reality – Australia & New Zealand (CBR) was founded as a private Facebook Group in September 2020 in reaction to the growing need for a coordinated response to transgender rights infringing upon the human rights of other vulnerable groups, primarily girls and women.

CBR aims to bring together volunteers, activists and organisations in a bipartisan, secular coalition to challenge transgender laws, policies and medical guidelines that might – or have already – undermined the human rights, dignity and freedoms of Australian and New Zealand citizens.

Our members include:

- Parents of trans children and adolescents with gender dysphoria
- Medical professionals
- Lawyers
- Feminists
- Lesbian, gay, bisexual and transsexual people
- Former partners of men that transitioned
- Academic researchers
- Religious people
- Podcasters and YouTubers
- Writers and authors
- Activists
- Lobbyists and political campaigners
- Women in sport
- International supporters

DISCLAIMER

CBR put this document together to serve as a one-stop-shop resource for people that are working to preserve and protect girls' and women's sex-based rights and the dignity and rights of other human beings.

Whether you are contacting politicians, organisations and businesses or leading your own business or a community or sporting group, or if you are just wanting to learn more, we hope **Challenging Transgender Ideology – Research, Resources & Articles** will prove to be a comprehensive and useful document.

We are not transphobic. We respect every human's right to express themselves without judgement. We know that transsexual people exist and we recognise the difference between transsexuals and the transgender/self-ID social & political movements unfolding before our eyes.

The information included in this document is not a confession or confirmation of membership in CBR on behalf of the groups, businesses and individuals associated with the aforementioned information. Inclusion in this document via linked information is not confirmation of affiliation between CBR or any of the groups, businesses or individuals associated with the aforementioned information.
